DRILLING ROCK WILL BE LOCATED ON MAIN STREET

CHAMPIONSHIP CONTEST WILL TAKE PLACE AT INTERSECTION BROUGHER AVE.

Preparations are practically complete for the big two days' Fourth of July celebration and many finishing touches were placed to the program last evening at the meeting of the general committee. The meeting was well attended, by both members of the committee and parties interested in the various events.

It was decided to erect the rock for the world's championship contest on Main street at the intersection of Brougher ave. Considerable opposition was manifested over the choosing of the location and during the two hours' discussion that followed the rock was moved all over the city, and even located at the ball grounds. Finally the stone was moved back without extra drayage charge and it was decided that the location be on Main street and Brougher avenue.

From advices received it is believed that five Indian tribes will be in attendance and participate in the war dances. The site for the holding of the dance was not decided upon, but will be settled before the Fourth. Indians are arriving from all directions and there promises to be a good representation of the once noble warriors.

The Indian band from the Carson Indian school will be present, final arrangements having been concluded by the committee. In addition there will be the Tonopah military band and the Tonopah boys' school band. With the three musical organizations present there should be no lack of music for the two days' celebration.

The committee last evening decided to place the rock on Main street in front of the McKim store, but this morning Ed Malley, chairman of the general committee, called the members of the different committees together, and after an hour's discussion it was agreed that the rock be placed where the women and children would have the best view.

"The men were not considered in the matter," declared Chairman Malley. "We decided that the comfort of the women and children must be looked after above all things, and with this in view it was decided that Main street at the intersection of Brougher avenue was the only plausible location. The scene will be within the view of people who gather in the windows of the State Bank and Trust building, the Masonic building, the Mispah hotel, besides being unobstructed on all four sides. It is the only feasible sight."
